COVER LETTER FOR JUNIOR CREATIVE/MARKETING ASSISTANT

26/09/2025

Hello Martin,

I'm excited to express my genuine enthusiasm for the Junior Creative/Marketing Assistant role at Noise Complaint. Having closely followed the agency as I know Cian personally, I feel that the agency's creative vision resonates with me and I have a strong connection to the brand's values and ethos.

While my background lies primarily outside the creative production industry, I bring a decade of experience in high-pressure kitchens combined with 4 years of digital sales, content creation, and asset management. These roles have developed effective client relationship skills, attention to detail, collaborative spirit, and cultivated resilience and adaptability. All of which would translate naturally to creative project work and fast moving production environments.

Outside of work, I have a passion for multimedia creation, dedicating my available time to videography. I have produced, filmed, and edited music videos utilising Illustrator, Premiere Pro, DaVinci Resolve, and After Effects, alongside practical programming with JavaScript and Python.

Although my experience in this specific industry is limited, I am an extremely quick learner, motivated by a genuine excitement to collaborate with your team and contribute fresh energy and ideas to projects.

This role represents a dream opportunity to blend creative, technical, and people-focussed skills in a setting I admire. I am eager to learn and to deliver meaningful results from day dot, and would love the chance to discuss further how my capabilities align with the needs of the agency.

I look forward to connecting soon if you feel the fit is right.

Kind regards,

Jay Cutforth
